Many thanks to all our allies from all over the world for coming to our rescue as we have 4 states being invaded by foreign oil (British) in the Gulf. In the last 100 years, the United States has rescued the Brits and most of Europe from foreign invaders at a huge cost in money and American lives-more than once! We have sent rescue teams to Haiti and other countries suffering natural disasters. WHERE IS THE HELP FROM OUR FOREIGN PARTNERS? Where is the outcry from all the Hollywood types who are so concerned about carbon pollution???? Where is the Sierra Club and all the environmentalists on this oil catastophy in the gulf???? The silence is deafening!!
